After Effects	
Premiere Pro	
Lightroom	

WORK EXPERIENCE

Kapi'olani Community College

Intern

2021 August–2022 May

I was in charge of designing marketing materials as an intern for Kapi'olani Community College. I created a poster, an annual report, videos, etc. It was a great experience to design using college information for students and faculty. I had a weekly meeting with advisors to check the working progress and get some feedback.

Huliamahi Summer Institute

Web Designer

2021 June–August

I worked as a part of the Huliamahi team during the 2021 summer. We had a weekly meeting to communicate with advisors and teammates. I was assigned to design and develop templates with Google Sites and create design materials, such as logomarks and brochures.

Board of Student Publications

Intern

2021 August–2022 May

The Board of Student Publications of Kapi'olani Community College assigns magazine design work to interns. I was in charge of working on one of the two magazines, the creative art journal called Leahi, creating its cover and designing interior pages. During the weekly meeting, I communicated with an advisor and a teammate to keep a consistent mood between the two magazines.

Waikiki Studio

Photographer Assistant

2017–2019

My cousin is a photographer at Waikiki Studio, and he lives and works in Hawaii. A few years ago, I assisted in his work, editing photographs with Adobe Lightroom and sending them to customers.
